JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

Adsorption isotherm
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
Adsorption of butanol
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
AM1 semi-empirical calculation
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
Anodic oxidation
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
Antimony
Two electrochemical processes for the deposition of Sb on Au(100) and Au(111): irreversible adsorption and underpotential deposition (Jung, Rhee) 277
Aqueous phase
Ion association at liquid|liquid interfaces (Pereira et al.) 9
Arsenic ad-atoms
Studies of oxidation of As ad-atoms at Pt and Au electrodes using the EQCM technique (Shibata et al.) 103
Ascorbate oxidase
Bioelectrochemical response of the polyaniline ascorbate oxidase electrode (Wang, Mu) 43
Asymmetric viologen
Electrochemical study on monomer/dimer equilibria of a series of asymmetric viologen monolayers on the electrode surface in the presence of hexafluorophosphate ion (John et al.) 267
Au electrode
Studies of oxidation of As ad-atoms at Pt and Au electrodes using the EQCM technique (Shibata et al.) 103
Bistability
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
1-butanol
In situ FTIR spectroscopic studies of the electrooxidation of C_4 alcohol on a platinum electrode in acid solutions Part I. Reaction mechanism of 1-butanol oxidation (Li, Sun) 65
Catalytic oxidation
Bioelectrochemical response of the polyaniline ascorbate oxidase electrode (Wang, Mu) 43
Charge-transfer complex
Resonance Raman and absorption spectroscopic studies on the electrochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Chronocoulometry
Adsorption of propanol on bismuth single-crystal-plane electrodes (Lust et al.) 141
Close packing
Electrochemical study on monomer/dimer equilibria of a series of asymmetric viologen monolayers on the electrode surface in the presence of hexafluorophosphate ion (John et al.) 267
Concentrated solutions of bromides and perchlorate
Kinetics and mechanism of the electrode reactions of the $Cr^{2+}|Cr(Hg)$ system in lithium bromide + lithium perchlorate solutions of decreased water activity (Marczak et al.) 79
Conducting polymer
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
Current oscillations
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Cyclic voltammetry
Voltammetric studies of the Au|YSZ interface at temperatures between 300 and 600°C (Breiter et al.) 155
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Cytochrome *c*
Direct electrochemical characterization of superoxide anion production and its reactivity toward nitric oxide in solution (Privat et al.) 261
D-glucose
Electrocatalytic properties of platinum particles incorporated with polypyrrole films in D-glucose oxidation in phosphate media (Becerik, Kadirgan) 189
DHB, Scatchard and Pitzer equations
Calculation of liquid junction potentials (Dorta-Rodríguez et al.) 173
Dication
Resonance Raman and absorption spectroscopic studies on the electrochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Dimer
Electrochemical study on monomer/dimer equilibria of a series of asymmetric viologen monolayers on the electrode surface in the presence of hexafluorophosphate ion (John et al.) 267
Dithionite
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Dropping mercury electrodes
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
Effects of pH
Effects of pH on ion transport in weak amphoteric membranes (Ramírez et al.) 119
Electrochemical canard
On the nature of the spontaneous oscillations observed for the Koper–Sluyters electrocatalytic reaction (Berthier et al.) 35
Electrochemical oxidation
Resonance Raman and absorption spectroscopic studies on the elec-

trochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Electrochemical sensor
Direct electrochemical characterization of superoxide anion production and its reactivity toward nitric oxide in solution (Privat et al.) 261
Electrochemical transformation
Electrochemical generation of binuclear complexes $[Mn_2^{III,III}(\mu\text{-}O)(\mu\text{-}OAc)_2(bpea)_2]^{2+}$ and $[Mn_2^{IV,IV}(\mu\text{-}O)_2(\mu\text{-}OAc)(bpea)_2]^{3+}$ from the mononuclear $[Mn^{II}(bpea)_2]^{2+}$ complex (Collomb Dunand-Sauthier et al.) 219
Electrochemistry
Electrochemical study on monomer/dimer equilibria of a series of asymmetric viologen monolayers on the electrode surface in the presence of hexafluorophosphate ion (John et al.) 267
Electrodeposition
Electrodeposition of lead sulphide in acidic medium (Sharon et al.) 49
Resonance Raman and absorption spectroscopic studies on the electrochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Electrooxidation
In situ FTIR spectroscopic studies of the electrooxidation of C_4 alcohol on a platinum electrode in acid solutions Part I. Reaction mechanism of 1-butanol oxidation (Li, Sun) 65
Electro-oxidation
Electrocatalytic properties of platinum particles incorporated with polypyrrole films in D-glucose oxidation in phosphate media (Becerik, Kadirgan) 189
Electropolymerization
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
EQCM
Studies of oxidation of As ad-atoms at Pt and Au electrodes using the EQCM technique (Shibata et al.) 103
Equilibrium constant of the $CrBr^+$ complex
Kinetics and mechanism of the electrode reactions of the $Cr^{2+}|Cr(Hg)$ system in lithium bromide + lithium perchlorate solutions of decreased water activity (Marczak et al.) 79
Equilibrium phases
Rate of hydrogen evolution on a liquid gallium electrode in partially miscible mixtures (Szabó et al.) 257
Frumkin isotherm
On the nature of the spontaneous oscillations observed for the Koper–Sluyters electrocatalytic reaction (Berthier et al.) 35
Gallium
Rate of hydrogen evolution on a liquid gallium electrode in partially miscible mixtures (Szabó et al.) 257
Gas diffusion electrode
Reduction of nitric monoxide to nitrogen at gas diffusion electrodes with Pd catalysts (Furuya et al.) 281
Gold
Two electrochemical processes for the deposition of Sb on Au(100) and Au(111): irreversible adsorption and underpotential deposition (Jung, Rhee) 277
Gold electrode
Voltammetric studies of the Au|YSZ interface at temperatures between 300 and 600°C (Breiter et al.) 155
Harmonic oscillations
On the nature of the spontaneous oscillations observed for the Koper–Sluyters electrocatalytic reaction (Berthier et al.) 35
Hexadecanethiol
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
HMPA
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Homoionic junctions
Calculation of liquid junction potentials (Dorta-Rodríguez et al.) 173
Hopf bifurcation
On the nature of the spontaneous oscillations observed for the Koper–Sluyters electrocatalytic reaction (Berthier et al.) 35
Hydrogen overpotential
Rate of hydrogen evolution on a liquid gallium electrode in partially miscible mixtures (Szabó et al.) 257
Immobilization
Bioelectrochemical response of the polyaniline ascorbate oxidase electrode (Wang, Mu) 43
Impedance
Adsorption of propanol on bismuth single-crystal-plane electrodes (Lust et al.) 141
In situ FTIRS
In situ FTIR spectroscopic studies of the electrooxidation of C_4 alcohol on a platinum electrode in acid solutions Part I. Reaction mechanism of 1-butanol oxidation (Li, Sun) 65
Interface
Voltammetric studies of the Au|YSZ interface at temperatures between 300 and 600°C (Breiter et al.) 155
Ion association
Ion association at liquid|liquid interfaces (Pereira et al.) 9
Ion transfer
Ion transfer at a micro water|nitrophenyl octyl ether interface (Quinn et al.) 285
Ion transport
Effects of pH on ion transport in weak amphoteric membranes (Ramírez et al.) 119
Irreversible adsorption
Two electrochemical processes for the deposition of Sb on Au(100) and Au(111): irreversible adsorption and underpotential deposition (Jung, Rhee) 277
Isobutanol–water–hydrochloric acid systems
Rate of hydrogen evolution on a liquid gallium electrode in partially miscible mixtures (Szabó et al.) 257
Isotopic kinetic effect
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Kinetics
Ion transfer at a micro water|nitrophenyl octyl ether interface (Quinn et al.) 285
Kinetics and mechanism of the Cr(II)|Cr(0) electrode process
Kinetics and mechanism of the electrode reactions of the $Cr^{2+}|Cr(Hg)$ system in lithium bromide + lithium perchlorate solutions of decreased water activity (Marczak et al.) 79
Large negative potential
The effect of large negative potentials and overcharge on the electrochemical performance of lithiated carbon (Verbrugge, Koch) 1
Lattice-gas model
Ion association at liquid|liquid interfaces (Pereira et al.) 9
Liquid junction potentials
Calculation of liquid junction potentials (Dorta-Rodríguez et al.) 173
Lithiated carbon
The effect of large negative potentials and overcharge on the electrochemical performance of lithiated carbon (Verbrugge, Koch) 1
Low band-gap polymer
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
Manganese complexes
Electrochemical generation of binuclear complexes $[Mn_2^{III,III}(\mu\text{-}O)(\mu\text{-}OAc)_2(bpea)_2]^{2+}$ and $[Mn_2^{IV,IV}(\mu\text{-}O)_2(\mu\text{-}OAc)(bpea)_2]^{3+}$

from the mononuclear $[Mn^{II}(bpea)_2]^{2+}$ complex (Collomb Dunand-Sauthier et al.) 219
3-Mercaptopropionic acid
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
Mercury electrodes
Kinetics and mechanism of the electrode reactions of the $Cr^{2+}|Cr(Hg)$ system in lithium bromide + lithium perchlorate solutions of decreased water activity (Marczak et al.) 79
Microarray electrode
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
Micromachining
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Micromechanics
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Micro water|NPOE interface
Ion transfer at a micro water|nitrophenyl octyl ether interface (Quinn et al.) 285
Modification
Study of interaction of ZnS coatings with Cu(I) and Cu(II) by cyclic voltammetry (Pilytė et al.) 127
Monolayer
Electrochemical study on monomer/dimer equilibria of a series of asymmetric viologen monolayers on the electrode surface in the presence of hexafluorophosphate ion (John et al.) 267
Nearest neighbor interaction
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
Negative impedance
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Nitric monoxide
Reduction of nitric monoxide to nitrogen at gas diffusion electrodes with Pd catalysts (Furuya et al.) 281
Nitric oxide
Direct electrochemical characterization of superoxide anion production and its reactivity toward nitric oxide in solution (Privat et al.) 261
Nitrogen formation
Reduction of nitric monoxide to nitrogen at gas diffusion electrodes with Pd catalysts (Furuya et al.) 281
Nonlinear phenomenon
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Non-stoichiometric copper sulphide
Study of interaction of ZnS coatings with Cu(I) and Cu(II) by cyclic voltammetry (Pilytė et al.) 127
n-propanol adsorption
Adsorption of propanol on bismuth single-crystal-plane electrodes (Lust et al.) 141
Overcharge
The effect of large negative potentials and overcharge on the electrochemical performance of lithiated carbon (Verbrugge, Koch) 1
Oxidation
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Oxo complexes
Electrochemical generation of binuclear complexes $[Mn_2^{III,III}(\mu\text{-}O)(\mu\text{-}OAc)_2(bpea)_2]^{2+}$ and $[Mn_2^{IV,IV}(\mu\text{-}O)_2(\mu\text{-}OAc)(bpea)_2]^{3+}$ from the mononuclear $[Mn^{II}(bpea)_2]^{2+}$ complex (Collomb Dunand-Sauthier et al.) 219
Oxygen species
Studies of oxidation of As ad-atoms at Pt and Au electrodes using the EQCM technique (Shibata et al.) 103
Partially blocked electrodes
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
Partially miscible mixtures
Rate of hydrogen evolution on a liquid gallium electrode in partially miscible mixtures (Szabó et al.) 257
PbS
Electrodeposition of lead sulphide in acidic medium (Sharon et al.) 49
Pd catalysts
Reduction of nitric monoxide to nitrogen at gas diffusion electrodes with Pd catalysts (Furuya et al.) 281
Phase segregation
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
Platinum particles
Electrocatalytic properties of platinum particles incorporated with polypyrrole films in D-glucose oxidation in phosphate media (Becerik, Kadirgan) 189
Polyaniline
Bioelectrochemical response of the polyaniline ascorbate oxidase electrode (Wang, Mu) 43
Polyfluorenylidene
Anodic oxidation of 2(9*H*-fluoren-9-ylidene)malononitrile and 2(9*H*-fluoren-9-ylidene)-2-phenylacetonitrile. Electrochemical behavior and physicochemical properties of the derived polymers (Rault-Berthelot et al.) 85
Polymer electrodes
Electrocatalytic properties of platinum particles incorporated with polypyrrole films in D-glucose oxidation in phosphate media (Becerik, Kadirgan) 189
Polythionites
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Potential oscillations
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Pt electrode
In situ FTIR spectroscopic studies of the electrooxidation of C_4 alcohol on a platinum electrode in acid solutions Part I. Reaction mechanism of 1-butanol oxidation (Li, Sun) 65
Studies of oxidation of As ad-atoms at Pt and Au electrodes using the EQCM technique (Shibata et al.) 103
Rate constant of the Cr(II)|Cr(Hg) reaction
Kinetics and mechanism of the electrode reactions of the $Cr^{2+}|Cr(Hg)$ system in lithium bromide + lithium perchlorate solutions of decreased water activity (Marczak et al.) 79
Reaction mechanism
In situ FTIR spectroscopic studies of the electrooxidation of C_4 alcohol on a platinum electrode in acid solutions Part I. Reaction mechanism of 1-butanol oxidation (Li, Sun) 65
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Reaction rate constants of cadmium ions
Catalysis and inhibition of charge transfer rate of cadmium ions at a partially blocked dropping mercury microelectrode by butanol (Baars et al.) 133
Reduction
Current oscillations in the reduction or oxidation of some anions involving convection mass transfer (Li et al.) 195
Reduction of nitric monoxide to nitrogen at gas diffusion electrodes with Pd catalysts (Furuya et al.) 281

Reduction mechanism
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Reductive desorption
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
Relaxation oscillations
On the nature of the spontaneous oscillations observed for the Koper–Sluyters electrocatalytic reaction (Berthier et al.) 35
Resonance Raman spectroscopy
Resonance Raman and absorption spectroscopic studies on the electrochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Self-assembled monolayer
Selective desorption of 3-mercaptopropionic acid from a mixed monolayer with hexadecanethiol assembled on a gold electrode (Nishizawa et al.) 213
Semiconductor electrochemistry
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Semiconductor thin film
Electrodeposition of lead sulphide in acidic medium (Sharon et al.) 49
Silicon etching
Kinetic isotopic effects in the anisotropic etching of *p*-Si⟨100⟩ in alkaline solutions (Baum, Schiffrin) 239
Single crystal
Two electrochemical processes for the deposition of Sb on Au(100) and Au(111): irreversible adsorption and underpotential deposition (Jung, Rhee) 277
Single-fiber electrode
The effect of large negative potentials and overcharge on the electrochemical performance of lithiated carbon (Verbrugge, Koch) 1
Stabilised zirconia
Voltammetric studies of the Au|YSZ interface at temperatures between 300 and 600°C (Breiter et al.) 155
Stoichiometric copper sulphide
Study of interaction of ZnS coatings with Cu(I) and Cu(II) by cyclic voltammetry (Pilytė et al.) 127
Sulfur dioxide
Electrochemical study of polythionite solutions in HMPA (Potteau et al.) 271
Superoxide
Direct electrochemical characterization of superoxide anion production and its reactivity toward nitric oxide in solution (Privat et al.) 261
3,3′,5,5′-tetramethylbenzidine
Resonance Raman and absorption spectroscopic studies on the electrochemical oxidation processes of 3,3′,5,5′-tetramethylbenzidine (Misono et al.) 203
Theoretical modelling
Effects of pH on ion transport in weak amphoteric membranes (Ramírez et al.) 119
Underpotential deposition
Two electrochemical processes for the deposition of Sb on Au(100) and Au(111): irreversible adsorption and underpotential deposition (Jung, Rhee) 277
Weak amphoteric membranes
Effects of pH on ion transport in weak amphoteric membranes (Ramírez et al.) 119
ZnS coatings
Study of interaction of ZnS coatings with Cu(I) and Cu(II) by cyclic voltammetry (Pilytė et al.) 127
